State of Ohio
1999 School Building Report Card

Eastgate Elementary School
Elyria City School District

Lorain County

The purpose of this report card is to provide you with information about how well your local school is doing — where it is succeeding and where there is room for improvement.

While it cannot tell you everything about your school's performance, the report card is a good starting point for discussions with teachers, administrators and school board members in your community.

Few factors have greater impact on student performance than parent and community involvement. For that reason, the State Board of Education and Ohio Department of Education encourage you to contact school officials for more information — and to find out how you can become more involved in efforts to improve the overall performance of your school.

What To Do With This Information

- Talk with school staff about questions or concerns you have.
- Ask what's being done to improve performance — and how you can help with those efforts.
- Discuss the report card with other parents in your community.
- Review the school's results with your children — so they see how they fit into the "big picture."

YOUR SCHOOL'S PERFORMANCE RESULTS

Proficiency tests are given every year to Ohio students in grades 4, 6, 9 and 12 to test their knowledge and skills in core subject areas. All test scores shown below have been adjusted to reflect higher performance standards that will be in effect by the year 2000. All results are for the 1997-98 school year, unless otherwise noted.

Performance Targets and Comparisons

Performance Standards are minimum state performance goals established by the Ohio General Assembly. Your school's performance results are shown in comparison to the overall district average and the overall state average.

Trend

The ***Trend*** section shows you whether your school's performance has improved or declined over the last 3 years.
