# EAC SLDS Grant Workgroup

December 1, 2022

Ohio | Department of Education
# Today's Agenda

- Review Agenda/Roll Call/May 2022 Meeting Minutes
- Review data to be included in the Early Warning System
- Collect EWS feature requests
- Review Progress Towards Graduation module
- Potential new EMIS reporting for EWS module use

# Approval of May 2022 Meeting Minutes

- Please review the [draft May meeting minutes](#) (also attached to today's meeting invite).

- *Is there a motion to approve the meeting minutes and a second?*

Ohio | Department of Education

# **Early Warning System Data**

- At its foundation, the ODDEX EWS will focus on ABC:
  - Attendance (10% absent for a particulate time period)
  - Behavior (1 or more days of suspension or expulsion)
  - Course grades (failed 1 or more credit-bearing courses)
- Additional data available in these areas
- The above criteria are binary- applies to a student or not
- Some warning system models use more in-depth data

Ohio | Department of Education

# Early Warning System Data

- The data used in the system will grow over time
- The eventual goal is to create a machine learning model that uses as much data as possible to identify at-risk students
- There are options between the ABC flags and the machine learning model
- The question- do more now, or only flags now and then machine learning model later?

# Early Warning System Data

- Review possible data to use now
- Discuss the pros and cons of a simple, general indication of possible issues (ABC) vs. a more complex approach that distinguishes levels of risk (Low, Medium, High, Ultra) using more data

# **Early Warning System Feature Requests**

• Work on the user interface for the EWS will begin soon

–What types of reports would you like to have?

–How do you think you would use the system?

–Work within the system vs. exporting lists?

–What types of users would you have in your district?

–Other ideas?

Ohio | **Department** of Education

# Progress Towards Graduation Review

- Release very soon

- Review user interface

- Review catalog of reports to be included

# Early Warning System Additional Data

- Some early warning systems use data we do not currently collect in EMIS

- Should we add optional EMIS reporting of this data for use by our EWS?
  - Middle school grades (non-credit courses)
  - Discipline incidents where the Type of Discipline is less severe than suspension
  - Better extracurricular data collection
  - Other data you use locally
