## 3.8 STAFF MISSING OVERRIDE RECORD

### ***Required Reporting Periods***

The Staff Missing Override Record is to be reported for the October (K) and Yearend (N) reporting periods.

### ***General Guidelines***

One or more Staff Missing Override Records is reported for staff members who are no longer with the district, and who last were with the district during a time period such that their separation from the district should have been reported in a prior reporting period.

For example, if a staff member leaves the district during a school year, then that separation must be reported at Yearend for that same year. If the district failed to report the staff member as no longer employed by the district at yearend, then an override would be required to remove that staff member from the Missing Staff report the next October.

Likewise, a staff member who completes the prior school year but ends all employment before the start of the next school year must be reported as separated in October reporting. If the district fails to report the separation in October, then an override would be required to remove that staff member from the Missing Staff report at Yearend.

Overrides are not a replacement for correct and timely reporting of EMIS data. Requesting an override via this record is acknowledging that incorrect data was reported in a prior reporting period.

Not all overrides needed for staff will be possible via reporting this record. For example, a staff member who changes from a local Z-ID to a state credential ID between reporting periods will still need an override, but that override must be requested via your ITC and the EMIS Helpdesk.
