Ohio | Department of Education

Overview

- FY19 Wrap-up

- SAFE/OH|ID conversion

- Recent FY19 changes

- CCP data reviews

Overview

- Recently new level 1 & 2 reports

- Data Collector enhancements

- ODDEX enhancements

- FY20 changes

- Level 1 & 2 reports being developed

FY19 Wrap-up

- March D Reporting
  - Closes Friday, May 10
  - Appeals window May 13-June 14
- All others on schedule for open and close
- Assessment missing lists
- SAFE/OH|ID conversion

Ohio | Department of Education

FY19 Assessment Missing Lists

- Nearly all assessments have missing lists
- Most will be based on both enrollment information and vendor files
- Plan to have students on list and business rules finalized at least 4 weeks before close
  - Some vendor files may be added later

FY19 Assessment Missing Lists

- Exceptions/issues:
  - No missing list: IB, AP, GW, WK, GX(STR)
  - Goal is to reflect accelerated students correctly for 3-8 and EOC by June 15
  - JVSDs and EOC- not always correct LEA if more than one LEA in the same year
  - SSID changes not reflected in Vendor files
  - DRP MAP- only based on vendor files
  - COS only requires 1 FA- some need 2

SAFE/OH|ID conversion

- Next Monday for most ODE applications that use SAFE
- For ODDEX, transition delayed for a few weeks
  - After transition, ODDEX will be on main ODE application menu (like other SAFE)
- See web page on ODE site
- If an OEDS admin, be ready…

Staff Access via OEDS Roles

Configure Authorizations

Use this page to configure authorizations for users accessing data and reports for: Liberty Center (000222). Start by selecting a role or a user. You can configure authorizations for all users who have this role, or configure the role's authorizations for each user separately.

Explanation of permissions and Data Set/Category acess authorizations
The roles for each user are defined in Safe, and ODE defines the permissions and authorizations for each role.
There are six different permissions which can be configured. Three permissions pertain to data:

- Collect: allows a user to start a collection, prepare collected data etc.
- Submit: allows a user to certify and submit.
- Review: allows a user to preview and review prepared data and Level 1 validation exceptions.

And three permissions pertain to reports:

- Level 1: View Level 1 Reports.
- Level 2: View Level 2 Reports.
- Files: View or donwload files received from ODE.

Each of the three data permissions (Collect, Submit and Review) can be further configured to grant or remove access to/from each Data Set. Eac permissions can be configured by Data Set and Category.
While ODE defines the permissions, and access granted to each permission, (for each Role), some roles are defined such that some aspect of the example a permission can be added or removed, or Data Set (or Category) access can be granted or removed.
