Known Issues Resolved:

New or Updated Level 1 Validation:

Error #	Description of Change

New or updated reports: Missing Student Assessment(GX)Spring OGT Results

This report contains a list of students that ODE is expecting OGT test record(s) and none has been reported. A test record is expected either because of student enrollment during the test window or the SSID appears on the test vendor file as having took the test.

FYI-Unexpected Spring Assessment Results-PIs confirm

This report contains a list of students that ODE did not expect OGT test record(s) to be reported. The record will be accepted by ODE but the district should confirm the information on the record.
