EMIS Release Notes- Updated Manifest

Collection Request Name: End of Year Student Collection (FY16)

Description of Change: This version now includes a record drop check on each record type where the drop is greater than 0. This functionality should prove to be helpful when completing the ODE Office of Data Quality approved appeal submissions; as the vast majority of cases record counts should increase not decrease. Carefully review your collection prior to submission. Take particular note of the number of records in the collection that were changed and make sure that matches the number of records you intended to correct.
