EMIS Release Notes- Updated Manifest

Collection Request Name: Initial Staff and Course Collection (FY19)

Description of Change: Corrects the issue of Staff Course (CU) records for contracted staff being put into the Excluded Records preview with the following message: "Staff Member Does Not have a Valid CI Record Reported."

The release will however still cause additional Staff Course and Course Master (CN) records to be put into the Excluded Records preview when there is not a valid Staff Demo (CI) record or an invalid Provider IRN is reported, which is a change from prior versions. Please review the Excluded Records preview regarding these additional records to ensure the exclusion of these records is accurate.
