

## EMIS Release Notes – Updated Manifest

**Collection Request Name:** SOES Beginning of Year Student Collection (FY23)

**Description of Change:** Corrected an issue with Student Program (GQ) Records appearing both with a fatal error and on the Excluded Records report. Updated the approved Preschool IRN list.

**Planned Availability Date:** 9/23/2022

**Version Number:** 4

**Updated Version Requires:**

- **Starting a new/restarting the current collection of data?** For some EMIS reporting entities
- **Running a new prepare of the collected data?** For some EMIS reporting entities
- **Replacing any data already submitted to ODE with a new submission?** For some EMIS reporting entities

**“Updated Version Requires” Additional Information:** None

**Enhancements:** None

**Known Issues Resolved:**

- Prior to this correction, program codes that are not reportable in the Beginning of Year Student (S) Collection generated a fatal Level 1 error and appeared on the Excluded Records report. With this version, those GQ records will now only appear on the Excluded Records report.
- IRN 016837 was removed from the approved Preschool submission list.

**Outstanding Issues:** None known

**New or Updated Level 1 Validation:** None

**New or Updated Reports:** None
