---|---|	08/2015, 04/2016

	Definition	The prior city, local, exempted village school district, community school, ESC, STEM District, or nonpublic school where the student was enrolled.	

Reporting Instructions. This element will be reported with a non-default value (a value other than "******") ~~only~~ when the Admission Reason Element is reported with a value of '3', '6', or '7'and the Admission Date is after the last day of school of the prior school year. <mark>Additionally, the element will be reported when the District Relationship of a student changes to a value of '1', from a '2' or '3'.</mark> If the IRN is unknown, the default value may be reported. Report the IRN of the district, community school, ESC, STEM district, or nonpublic school from which the student transferred. For an Admission Reason of '7', this could be the reporting entity's own IRN. ESCs and JVSDs should always report the default ('******') for this element.

<mark>~~A non-default value is only required to be reported during the first school year of admission or re-admission to the district. The default value may be reported after the student's first school year at the district.~~</mark>

When a student's prior enrollment involved multiple districts, the Admitted From IRN should be the IRN of the educating district. When the prior educating district is a JVSD, the admitting district should report the IRN of the previous district that sent the student to the JVSD.

If the student is enrolling from a nonpublic school that does not have a valid IRN, report 999999.

This element should be reported with the IRN of the last Ohio public district or nonpublic school that the student was enrolled in, if that enrollment happened during the current school year or the previous school year.
