Field #	Field	Data Type	Description	Comments
1	Educ_Cred_Key	Number	This is our internal database key. It is unique to each educator and credential (i.e. every row) in this file	This is an internal database key for each individual credential
2	Staff State ID	Character	An unique ID we issue that stays with the educator forever	
3	First Name	Character		
4	Middle Name	Character		
5	Last Name	Character		
6	Credential Term Name	Character	The length of the credential	These 4 elements make up the core of the
7	Professional Classification Name	Character	This was formerly called the Class. Example: Professional, Provisional, Temporary	credential. All these pieces come together to define the credential. So you get things like a 2
8	Credential Category Name	Character	This simply indicates if the credentials is a License, Certificate or Permit	year, provisional, license, Elementary 1-8 credential. Below the teaching fields and
9	Credential Type Name	Character	This further defines the type of credential Example: Elementary 1-8, High School, Principal, Treasurer,	sometimes the endorsements further define the credential by subject.
10	Action Name	Character	Example: New In State, New Out of State, Renewal	
11	Valid In Organization IRN	Character	This is the IRN for credentials that are only valid in one school district or educational service center	The IRN is the unique identifier we issue for all organizations. Some credentials are only allowed to be used in specific orgs. This field indicates those orgs (if any)
12	Status	Character	Indicates the status of the credential. All should be in "Issued" or active status.	
13	Issue Date	Character	YYYYMMDD format	
14	Expiration Date	Character	YYYYMMDD format, is null for Permanent licenses	
15	Effective Year Name	Character	Note that effective year IS THE EXACT OPPOSITE of fiscal year. So an effective year of 2007, means that the credential was valid for the first time in school year 2007-08.	The effective year remains the same always but indicates the first year a credential was able to be used.
16	Teaching Field Legacy ID 1	Character	This further defines a credential (along with the TF name) but is not on all credentials.  Typically defines the subject areas the	Alternates between ID and Name 18 times
