Achievement

The Achievement Component measures students academic achievement using each level of performance on Ohio's State Tests.

Performance Index

The Performance Index measures the test results of every student, not just those who score proficient or higher. Schools and districts receive points on the index for every student who takes a test. The higher the performance level on the state tests, the more points awarded toward the index score. The index score is divided by the maximum possible score. Each year the maximum possible score is determined by the average of the highest 2% performance index scores in the state.

82.0%

89.2 of a possible 108.8

Performance Indicators (Report Only)

The Performance Indicators measure reports the percent of students who have scored proficient or higher on state tests. This measure does not factor into the Achievement Component rating - the data is reported for informational purposes only.

Significant evidence that the district exceeded student growth expectations.

Progress

The Progress Component measures the academic performance of students compared to expected growth on Ohio's State Tests.

For more detailed data on Progress and Value-Added, click [here](#).

Progress Details

These tables show the Progress scores by test grade and subject for students in grades 4-8 and some end-of-course tests, and includes up to three years of data as available.

Test Grade	Progress			
	English Language Arts	Mathematics	Science	All Tests
All Grades

7th Grade				
8th Grade				

Test Grade	Progress							
	English II	Algebra	Geometry	Mathematics I	Mathematics II	Biology	American History	American Government
High School								

The Progress Component measures how groups of students made progress as compared to the statewide expectation of growth. The expectation of growth is based on how students in the group performed, on average, compared to other students like them across the state.

-  Significant evidence that the district exceeded student growth expectations by a larger magnitude.
-  Significant evidence that the district exceeded student growth expectations.
-  Evidence that the district met student growth expectations.
-  Significant evidence that the district fell short of student growth expectations.
-  Significant evidence that the district fell short of student growth expectations by a larger magnitude.
-  Value Added data is not available.

Significantly exceeds state standards in closing educational gaps

Gap Closing

The Gap Closing component shows how well schools are meeting the performance expectations for our students in English language arts, math, and graduation. It also measures how schools are doing in supporting English learners to increase language proficiency, reducing chronic absenteeism for all students, and identifying gifted students and providing gifted services.

Annual Performance Goals

The annual performance goals are established in six areas, and the performance of specific student subgroups are measured against the annual or long-term goals for each area. Goals are established for English Language Arts academic achievement and growth, Math academic achievement and growth, graduation, English learner language proficiency, chronic absenteeism, and gifted performance. The state expectation for all areas and all student subgroups is to continue closing educational gaps year over year. A proportional adjustment is applied to schools and districts if their combined testing participation rate in English language arts and math does not meet or exceed 95 percent.

[View More Gifted Data](#)

Gifted Identification and Services

Total Points:	84
Possible Points:	140
Gifted Identification and Service Percentage:	60.0%
Gifted Identification and Services Met?	Not Met

The Gifted Identification and Services element awards points based on the levels of identification of and services provided to gifted students. In 2022-2023, schools and districts must earn 70% of possible points on this element to receive points towards the Gap Closing Component.

Gifted Indicator Final Result

10
Indicator

The Gifted Performance Indicator can contribute up to 15 points towards the Gap Closing Component - 5 points per element met. Schools and districts do not have to meet all elements to earn points, points are awarded per element.

[Click here](#) for a complete description of how the Gifted Indicator is determined.

Gifted Students

Gap Closing

The Gifted Students data and Indicator highlight the opportunities for and performance of gifted students. The dashboard answers several questions: How many students are identified as gifted and in what categories? How many of those students are receiving gifted services? How well are those gifted students performing? The Gifted Indicator measures whether opportunity and performance expectations are being met for gifted students.

Gifted Performance Indicator

Overview Performance Index Gifted Identification and Services

The Gifted Performance Indicator includes three elements: Performance Index for gifted students, academic growth for gifted students, and Gifted Identification and Services points.

Gifted Progress

Value Added Rating:	5 Stars
Value Added Met?	Met

The Gifted Progress element measures academic growth for students identified as gifted. A school or district must earn the equivalent of a 3 Star rating or better to receive points towards the Gap Closing Component.

Gifted Performance Index

Performance Index:	117.823
Max Gifted Performance Index:	120.556
Performance Index Percentage:	97.7%
Performance Index Met?	Met

The Gifted Performance Index Score uses the same calculation rules as the regular Performance Index Score, including applicable tests as required in state law. The Gifted Performance Index Score is calculated only for students identified as gifted in the school/district. In 2022-2023, schools and districts must earn 96.5% of the maximum score on this element to receive points towards the Gap Closing Component.

Meets state standards in early literacy (K-3).

Early Literacy

The Early Literacy Component is a measure of reading improvement and proficiency for students in kindergarten through third grade.

Early Literacy Component

Early Literacy Component Details

Fall Reading Diagnostics

Improving K-3 Literacy Measure Details

Early Literacy Component

Ohio's Plan to Raise Literacy Achievement

provides a proactive approach to reading supports beginning in kindergarten. The Early Literacy Component examines the effectiveness of the reading and literacy supports provided to children in kindergarten through third grade. It is composed of three unrated measures that contribute to the overall rating.

72.0%

Measure	Measure Percentage
Proficiency in Third Grade Reading	70.2%
Promotion to Fourth Grade	99.9%
Improving K-3 Literacy	35.7%
Early Literacy Component	72.0%

Early Literacy Component

Early Literacy Component Details

Fall Reading Diagnostics

Improving K-3 Literacy Measure Details

Proficiency in Third Grade Reading

The Proficiency in Third Grade Reading Measure is the percentage of third graders that scored proficient on the reading segment of the state English language arts test. Students have to earn a reading subscore of 50 or higher to earn credit for this measure.

70.2%

Promotion to Fourth Grade

The Promotion to Fourth Grade measure is the percentage of third grade students who were promoted to fourth grade.

99.9%

Improving K-3 Literacy

The Improving K-3 Literacy Measure evaluates reading improvement that occurs during kindergarten, first, second and third grade. It looks at whether students that were previously off track are now on track and reading at grade level. It uses results from Fall Reading Diagnostics taken in the fall of 2021 and fall of 2022 as well as results from the 2022-2023 state English language arts test.

35.7%

Fall Reading Diagnostics provide a good snapshot of the K-3 literacy in a school or district. They are also used to evaluate year over year improvement on the Improving K-3 Literacy Measure.

Fall 2021 Reading Diagnostics

The fall 2021 reading diagnostics in kindergarten through second grade are the baselines for kindergarten through second grade improvement on the 2023 Improving K-3 Literacy Measure.

Fall 2022 Reading Diagnostics

The fall 2022 reading diagnostics in third grade are the baseline for third grade improvement on the 2023 Improving K-3 Literacy Measure. If greater than 90% of the kindergarten students in the fall of 2022 are on track, the Improving K-3 Literacy Measure is not calculated and does not contribute to the Early Literacy Component.

Additional Details on Improving K-3 Literacy

The Improving K-3 Literacy Measure evaluates reading improvement that occurs during kindergarten, first, second and third grade. Kindergarten, first and second grade improvement evaluates students that were previously off track (meaning they scored off track on the Fall 2021 reading diagnostic) to see if they improved to on track on the Fall 2022 reading diagnostic. Third grade improvement evaluates students that were previously off track (meaning they scored off track on the Fall 2022 reading diagnostic) to see if they scored a 700 or higher on the third grade English language arts test. The Improving K-3 Literacy Measure is not calculated for schools or districts that have greater than 90% of their kindergarteners reading on track based on the 2022 Fall Kindergarten Reading Diagnostic.

★★★★★

Exceeds state standards in graduation rates

Graduation

The Graduation Component is a measure of the four-year adjusted cohort graduation rate and the five-year adjusted cohort graduation rate.

Weighted Graduation Rate

The weighted graduation rate combines the four- and five-year graduation rates into a single rate that is used to assign the Graduation Component rating. The four-year graduation rate is weighted at 60% and the five-year graduation rate is weighted at 40%.

95.9%

4-Year Graduation Rate

The four-year graduation rate applies to students in the class of 2022 who graduated within four years. These are the students who entered ninth grade in the fall of 2018 and graduated by the summer of 2022.

96.1%

Percentage of students who completed grades 9-12 in the district: 74.7%

5-Year Graduation Rate

The five-year graduation rate applies to students in the class of 2021 who graduated within five years. These are the students who entered ninth grade in the fall of 2017 and graduated by the summer of 2022.

95.6%

Percentage of students who completed grades 9-12 in the district: 79.1%

Resources

The Ohio General Assembly amended Ohio's accountability law in the summer of 2021. Schools and districts now receive an overall rating and star ratings for five components. Additional information on the changes to the accountability system can be found on the Department's [Report Card Resources webpage](#).

Report Cards are designed to give parents, communities, educators and policymakers information about the performance of districts and schools — to celebrate achievement and success and identify areas for improvement. The information provides clear and easily available reporting on student performance, drives local conversations on school improvement and identifies schools to receive supports for getting better. The goal is to ensure all students receive an excellent education that can lead to success in life, careers and future learning.

Report cards are only one part of the story about what is happening in schools and districts. To get a more complete picture, we encourage you to visit schools, talk to educators, parents and students, and review the school's or district's webpage. A lot of great things are happening every day in Ohio's schools!

STUDENT RECOVERY DASHBOARDS

What is on the District and School Dashboards?

- District and school level data.
- ESSER funding data.
- Can view up to five years of data on one page.
- Ability to export data to a spreadsheet.
- Data in graph/chart form that allows for quick disaggregation.
- For the School Dashboard, can filter by county and school type.

Student Recovery Dashboards

The Student Recovery Dashboards are tools designed to better understand the impact of the pandemic on Ohio's students and progress towards academic recovery. The District Student Recovery Dashboards allow for a statewide view of public school students, as well as the ability to sort by public district. The School Student Recovery Dashboard allows for a building-level look at recovery data for public schools in Ohio, including community schools.

The introductory page of the dashboard captures key indicators such as enrollment, graduation, K-3 on track diagnostic trends, chronic absenteeism and proficiency scores. The tiles to the left allow users to take a deeper look at other contextual information, including ESSER spending rate, KRA data and early literacy.

SECURE DATA CENTER

What is on the Secure Data Center?

- A way for staff to review data submitted to the department
- Updated earlier than public data
- Available to school and district staff
- Accessed through OH|ID portal
- Must be assigned appropriate OEDS role

The screenshot shows the Ohio Department of Education Report Portal. At the top is a dark red navigation bar with a 'Home' dropdown menu and social media icons for Facebook, Twitter, YouTube, Instagram, and RSS. Below the navigation bar is the title 'Ohio Department of Education Report Portal'. A welcome message states: 'Welcome to the new Ohio Department of Education Report Portal! ODE produces many reports providing information on a variety of topics. ODE is in the early stages of transitioning to a new reporting platform, and the Reports Portal currently contains reports for the following topics:'. A sub-message says: 'Select a report from the menu to run it. To help you zero in on the specific information you are looking for or to simply explore the data, most reports are interactive via dropdown lists, radio buttons, or check boxes.' Below this are four report categories, each with an icon and a description:

- Public Data**: Reports for public districts and schools using academic, attendance, enrollment and financial data. (Icon: Bar chart)
- Secure Data Center**: Reports available to Districts and other LEAs depicting local report card measures. (Icon: Document with a red circle) **This option is highlighted with a red border.**
- Finance**: Reports about School Foundation Payments and Five Year Forecast. (Icon: Document with a dollar sign)
- Nonpublic Data**: Reports for nonpublic schools and homeschool students using academic, enrollment and scholarship data. (Icon: Document with a pie chart)
