Committee facilitator Kelly Gaier-Evans welcomed committee members to the third meeting of the State Committee on Computer Science. Committee Chair Mike Duffey asked for votes on the November and December minutes. The minutes were approved unanimously. Ms. Gaier-Evans provided a recap of the previous meeting including a review of the committee's charge and gave a preview of today's meeting agenda.

Ms. Gaier-Evans divided the committee into small groups to discuss the definition of computer science. The small groups took notes on their discussions using provided flip-chart paper and then shared out their discussions with the full group.

After a brief break, Ms. Gaier-Evans again broke the committee into small groups. The groups discussed challenges that prevent the state from becoming a leader in Computer Science. The groups began to discuss recommendations for the state plan that address this challenge.

Ms. Gaier-Evans concluded the meeting and gave the committee members an overview of their homework to be completed before the next meeting.

The next meeting will take place on Wednesday, March 9, 2022.
