## Stuart High School Awards and Recognition

### INTERNATIONAL BACCALAUREATE ORGANIZATION

#### IBNA Inspiration Awards 2004

*Education is by its nature a collaborative endeavor, and we are often inspired by what we learn from other educators. This seems particularly true in the IB world, with its tradition of sharing, and through the enormous generosity that IB practitioners have shown each other over the years. Often these acts are unseen and unsung, but they animate the education profession and represent the essence of the IB spirit. For these reasons, these stories need to be told.*
