

State of Ohio 1998 School Building Report Card

Eastview Elementary School Avon Lake City School District

The purpose of this report card is to provide you with information about how well your local school is doing — where it is succeeding and where there is room for improvement.

While it cannot tell you everything about your school's performance, the report card is a good starting point for discussions with teachers, administrators and school board members in your community.

Few factors have greater impact on student performance than parent and community involvement. For that reason, the State Board of Education and Ohio Department of Education encourage you to contact school officials for more information — and to find out how you can become more involved in efforts to improve the overall performance of your school.

- How well did your school perform last year?
- Are children in your community receiving a quality education?
- How can your community help improve your school?

YOUR SCHOOL'S PERFORMANCE RESULTS

Proficiency tests are given every year to Ohio students in grades 4, 6, 9 and 12 to test their knowledge and skills in core subject areas. All results shown below are 3-year averages, unless not available. In addition, all test scores have been adjusted to reflect higher performance standards that will take effect in the year 2000.

State Proficiency Tests

Targets	Comparisons	Trend
<i>Performance Standards</i> are <u>minimum</u> state performance goals established by the Ohio General Assembly.	The <i>Comparisons</i> section shows how well your school performed in comparison to the overall district average and the overall state average.	The <i>Trend</i> section shows you whether your school's performance has improved, declined or stayed about the same over the last 3 years.

QUESTIONS TO DISCUSS IN YOUR COMMUNITY

- ✓ Is your school achieving — or close to achieving — the state's minimum performance standards? If not, what is your school doing to improve results?
- ✓ How is your school doing compared to the overall district and state performance?
- ✓ Has your school's performance improved or declined over the last three years?
- ✓ Are students missing too much school? How is that likely to affect learning and test scores?
- ✓ What efforts are under way to improve areas where results are not satisfactory or where the school is not improving?
- ✓ What efforts are under way to keep students in school?
