Performance Index Score Over Time	2002–2003	2001–2002	2000–2001

### Glossary:

**Adequate Yearly Progress (AYP):** The federal mandate that holds schools accountable for the performance of subgroups, as well as all students. The goal is to have 100% of all students at and above proficient by 2013–14 in reading and math.

**NC:** Not Calculated. Based on federal and state privacy laws, NC is used when there are fewer than 10 members in a subgroup to protect the identity of those individuals. Data is received on all students. All students are included in the report of overall proficiency levels for the school and district.

**NR:** Not Required for AYP due to subgroup size below minimum number for statistical reliability. 30 is minimum for all student groups, except for student with disabilities the minimum is 45.

**Performance Index Score:** Your number is determined by a weighted average of performance levels (basic, below basic, proficient, and advanced) across each subject and each tested grade. The Performance Index is on a scale of 0 to 120 points and 100 is the goal. For more detail about the performance index calculation and formula or to see the data from your school, please visit the ODE website at [www.ode.state.oh.us/reportcard](http://www.ode.state.oh.us/reportcard).

**Proficient Level:** Score on test at which students meet or exceed expectations for proficiency on each assessment.

**School Rating:** The 2002–03 School Year Report Card is the first to rate district's based on the higher of the percentage of report card indicators met or the performance index score and whether the AYP goals were met for the year. The ratings are Excellent, Effective, Continuous Improvement, Academic Watch or Academic Emergency.

**Similar Districts:** School districts similar to yours based on comparing district size, poverty levels, socioeconomic status (family income, education levels, professions) and factors related to urban or rural location and overall property wealth.

**State Indicator:** The State Board of Education minimum requirement is that 75% of students in 4th, 6th and 9th grades are at and above the proficient level on statewide assessments. The standard increases to 85% of students at the proficient level for the results on the 9th-grade proficiency test at the end of 10th grade. The non-test standards are a 90% graduation rate and a 93% attendance rate.

## YOUR SCHOOL'S ASSESSMENT RESULTS OVER TIME

### 9TH GRADE PROFICIENCY *(9th graders' results through the end of grade 9)*

Previous years' data have been adjusted to include all students in the percentage proficient for the school. In prior years, some students with disabilities were exempted from the accountability calculations. All students enrolled in the school for 120 consecutive school days are included this year.
